

## Fernie Facts

Mountains of snow, mountains of adventure! An amazing 29 feet of natural snow blankets the ski area's impressive alpine bowls nestled in the majestic limestone cliffs of the Lizard Range in the Rocky Mountains of British Columbia. This is the fastest growing resort in Canada, "top ten in North America", "most improved" and "best new lifts" are just a few of the notable awards this resort has earned. You choose your level of adventure at Fernie, steep and deep or smooth and gentle, you will love the incredible variety of terrain.

Fernie's mountain adventure centre offers a huge variety of day or evening activities to supplement downhill skiing and riding. Choice include moonlight snowmobile tours, snowshoeing, dogsledding, sleigh rides, cross-country skiing, and torchlight runs.

A wide variety of on mountain ski-in / ski-out accommodations are available in the mountain's village and as the resort is located only minutes from the historical mining town of Fernie, there are many options for dining, shopping and activities.
