

St Anton Facts

St Anton holds probably the greatest tradition in Austria. Here was the first skiing club ever founded and here the first championship took place. Today, over 280 kilometres of perfectly prepared slopes await skiers every year. Around 180 kilometres of unbeaten ski runs should be more than enough for those, who search for stronger adventure. Three main villages of St. Anton, St. Christoph and Stuben offer a large choice of après ski activities.

Lech Facts

Lech and its higher neighbour Zürs are the most glamorous and expensive resorts in Austria. Lech is for those who don't mind fur coats, do like well groomed, snow sure, cruising slopes, and are content to enjoy a winter holiday in pampered comfort and style in a traditional Alpine village. There are challenging slopes available (mainly off-slope) and the tougher slopes of St. Anton are only a short bus- or car-ride away. But it is the part-timer, who enjoys the après and the strolling as much as the winter sports that will get the most out of the resort. It helps to have a deep pocket.
