STATE OF THE ART

Situated in the Kosciusko National Park, this area consists of Perisher, Smiggins, Guthega and Blue Cow. Perisher is Australia's biggest ski resort with plenty of room to move for everybody, great on snow accommodation and ample facilities.

Perisher Ski Resort is located well above the snow line. It's the elevation and enormous spread that offers great boarding and skiing, boasting a massive grooming fleet, the largest in Australia, state of the art equipment and experienced, service focused staff that understand the importance of a properly groomed mountain. There is 54.3 ha of snowmaking at Perisher, so when mother nature holds back they have it covered.
